DBQ Practice · Sourcing: Historical Situation

PROMPT

Evaluate the extent to which reform movements changed American society from 1815 to 1850.

Your task: Write 2–3 sentences that explain how the historical situation in which the document on this page was written is relevant to an argument that responds to the prompt.

What earns the point: To earn credit, explain how the document's historical situation (the events and conditions when and where it was created) is relevant to your argument. Simply identifying the date or place does not earn credit; you must explain why the situation matters to the document's meaning or significance.

Declaration of Sentiments, adopted by the women's rights convention at Seneca Falls, New York, July 19–20, 1848

We hold these truths to be self-evident; that all men and women are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness; that to secure these rights governments are instituted, deriving their just powers from the consent of the governed.

[. . .]

The history of mankind is a history of repeated injuries and usurpations on the part of man toward woman, having in direct object the establishment of an absolute tyranny over her. To prove this, let facts be submitted to a candid world.

He has never permitted her to exercise her inalienable right to the elective franchise.

He has compelled her to submit to laws, in the formation of which she had no voice.
