Era 14: Progressive Era

1890–1920 · APUSH Period 7 · Lessons 33–34

Name _____ Due _____

This is your study guide for the whole era. Complete each lesson section as you study it, using your class notes and textbook: read the AP topic(s) listed for the lesson in your textbook, define every term, person and event in your own words, then answer the Key Question in 3–5 sentences with specific evidence. Each lesson is checked and stamped in class; the whole guide is collected and graded at the end of the era. **Before the end-of-era test:** finish the Era Wrap-Up, then reread the whole guide. Fix or add anything in a different color.

a. Briefly describe the cartoonist's point of view about Standard Oil.

b. Briefly explain ONE way the federal government acted against trusts like Standard Oil between 1890 and 1914.

c. Briefly explain ONE other Progressive reform between 1900 and 1920 that addressed a problem created by industrialization.

DBQ Practice · Evidence from the Documents

PROMPT

Evaluate the extent to which Progressive reformers succeeded in addressing the problems of industrial society from 1890 to 1920.

Your task: Write 2–3 sentences that describe what the document on this page says and explain how it supports an argument that answers the prompt.

What earns the point: To earn credit, describe the content of the document in your own words (do not just quote or summarize it) and use it to support an argument that responds to the prompt. On the real DBQ you would do this with at least four of the seven documents.

Upton Sinclair, The Jungle (1906), Chapter 14

There was never the least attention paid to what was cut up for sausage; there would come all the way back from Europe old sausage that had been rejected, and that was moldy and white—it would be dosed with borax and glycerine, and dumped into the hoppers, and made over again for home consumption. There would be meat that had tumbled out on the floor, in the dirt and sawdust, where the workers had tramped and spit uncounted billions of consumption germs. There would be meat stored in great piles in rooms; and the water from leaky roofs would drip over it, and thousands of rats would race about on it. It was too dark in these storage places to see well, but a man could run his hand over these piles of meat and sweep off handfuls of the dried dung of rats. These rats were nuisances, and the packers would put poisoned bread out for them; they would die, and then rats, bread, and meat would go into the hoppers together.
