Lesson 16 Reading Homework

Era 7: Market Revolution & Reform (1815–1850) · Focus: Market Revolution · technology · immigration · urbanization

Reading due today: AMSCO 4.5, 4.6

Connect: The Erie Canal (1825) and new technology knit together a national market economy. Track how the Market Revolution reshaped work, and who benefited vs. who was left out.

Learning Objective(s) for today

– **4.5 (LO E):** Explain the causes and effects of innovations in technology, agriculture, and commerce over time.

– **4.6 (LO F):** Explain how and why innovation in technology, agriculture, and commerce affected various segments of American society over time.

As you read, identify each of the following:

Terms (define in 1–2 sentences)

[ ] Market Revolution
[ ] Lowell System
[ ] cotton gin
[ ] interchangeable parts
[ ] telegraph
[ ] canals & railroads
[ ] Irish & German immigration
[ ] nativism
[ ] Know- Nothing Party

People (name + role/significance in 1 sentence)

[ ] E. Whitney
[ ] F. Lowell
[ ] S. Slater
[ ] S. Morse
[ ] R. Fulton

Events (year + one-sentence significance)

[ ] Erie Canal opens (1825)
[ ] rise of factory towns
[ ] Irish Potato Famine immigration (1845–55)

Reading Focus Questions

Answer in 2–4 complete sentences each. Use specific evidence from the reading.

1. Identify TWO technologies that drove the Market Revolution and explain how each changed daily work.

2. How did the Market Revolution change the roles of women and the nature of wage labor (consider the Lowell System)?

3. How did surging Irish and German immigration fuel both economic growth and a nativist backlash (Know-Nothings)?
