Annexation (Manifest Destiny)

John L. O'Sullivan · United States Magazine and Democratic Review · July–August 1845

Editor John L. O'Sullivan coined the phrase 'manifest destiny' in this essay arguing for the annexation of Texas. The phrase captured a popular belief that the United States was providentially destined to expand across the continent — a belief used to justify the Mexican-American War, the displacement of Native peoples, and the expansion (or restriction) of slavery into new territories.

Connect: The Missouri Compromise (Class 8) tried to freeze the slavery question by geographic line. How does westward expansion re-open that wound?

Key Passages

The famous phrase

> It is now time for the opposition to the Annexation of Texas to cease … other nations have undertaken … to thwart our policy and hamper our power, limit our greatness and check the fulfillment of our manifest destiny to overspread the continent allotted by Providence for the free development of our yearly multiplying millions.

On California

> California will, probably, next fall away. … Imbecile and distracted, Mexico never can exert any real governmental authority over such a country.

On race and 'progress'

> The Anglo-Saxon foot is already on its borders. Already the advance guard of the irresistible army of Anglo-Saxon emigration has begun to pour down upon it … armed with the plough and the rifle, and marking its trail with schools and colleges, courts and representative halls, mills and meeting-houses.
